## American Ship Sunk By Submarine.

### Captain and Crew Were Landed.—German Agents Reported Active in Mexico.

#### Important War News Told In Short Bulletins From Associated Press Reports.

LONDON, Feb. 15.—The American schooner Lyman M. Yaw was sunk by a submarine on Monday, according to a dispatch from the Sefani agency of Rome. The crew, including eight Americans, is reported to have been landed. The Lyman M. Yaw, Captain Chatfield, was last reported on her departure from Stockton, Maine, for Palermo, Sicily. She was owned by the Benedict-Manson Company, of New Haven, Conn. Her gross tonnage was 1,300. She was built in 1890 at West Haven, Conn.

WASHINGTON, Feb. 15.—Suspicion that German agents are promoting activities in Mexico which might develop into a flank move against the United States if this nation becomes involved in war with Germany is increasing.

For several days there have been persistent reports of the activities of German military officers and secret agents in Mexico. It is believed that unusual considerations influenced Carranza to place himself in the ludicrous attitude of disregarding the anarchy of his own land, the slaughter of Americans, and the destruction of American property, while preaching peace and brotherly love in Europe.

WASHINGTON, Feb. 15.—A bill directed against ruthless submarine warfare and proposing to open the ports, harbors and waters of the United States in time of war to warships or vessels of belligerents against whom such warfare is waged was introduced by Senator Saulsbury, of Delaware, president pro tempore of the Senate and a member of the Foreign Relations Committee. At his request it was referred to the committee.

Other Senators pointed out that the bill would permit the United States to give aid to the Entente Allies as long as the German submarine campaign is maintained, without any further action by Congress, giving the President authority to use armed forces of the Nation to protect American seamen and property on the seas.

WASHINGTON, Feb. 15.—Establishment of a submarine training base in Los Angeles harbor and of a submarine war operating base at San Diego is recommended in a report of the special navy commission, headed by Rear Admiral Helm, made public by the Navy Department.

The commission recommends acceptance of "site No. 1" offered free of cost to the government by the city of Los Angeles. The plant there, the report says, should be used permanently as a training base for at least sixteen submarines, and for operations in time of war.

For the San Diego base the commission proposes setting aside a portion of the existing naval reserve as a site.

WASHINGTON, Feb. 15.—In a farewell statement before leaving for New York to sail homeward aboard the Scandinavian steamship Frederick Eighth, Count von Bernstorff expressed the hope that war between the United States and Germany might be averted and friendly relations soon re-established. Elaborate precautions have been taken to protect Count von Bernstorff during the trip and after his arrival in New York.

WASHINGTON, D. C., Feb. 15.—Seventeen members of the crew of the White Star line steamer Afric are missing as a result of the destruction of the vessel by a submarine. The Afric was of 11,999 tons. Two other vessels, the British steamer Foreland, 1,160 tons, and the Norwegian motor vessel West, are reported to have been sent to the bottom.

WASHINGTON, D. C., Feb. 15.—In a raid across the border by Mexicans near Chichila, N. M., three Mormons are said to have been killed and several Mexican ranch hands and supplies were captured, according to a report received at El Paso.

WASHINGTON, D. C., Feb. 15.—An inquiry concerning the detention by Germany of the seventy-two American seamen brought in by the prize ship Yarrowdale, was dispatched to Berlin, preliminary to more vigorous action if the men are not immediately released.

BERLIN, Feb. 15, (via London).—It is absolutely denied here that Germany in a note to the United States or through other mediums, is inviting suggestions for the avoidance of actual war. It is reiterated that the Imperial Government is not permitting doubts in any quarters regarding the position actively assumed in the U-boat warfare, and that there can be no talk or thought of recession from the programme already being carried out.

WASHINGTON, Feb. 15.—The steady accumulation of violations of American rights by Germany made it appear probable Wednesday that President Wilson soon would go before Congress to ask authority for further protecting lives and property, without

waiting for a serious disaster which might shock the country.

However, it again was stated authoritatively that he would move deliberately and with full appreciation of all the consequences involved.

Official reports of the sinking of the American schooner Lyman M. Law in the Mediterranean by an Austrian submarine added only slightly to the tension, for while the act is believed to have been illegal, no lives were lost and the vessel apparently was warned. The incident was not looked upon as one in itself sufficient to hurry the developments of the situation.

BERNE, February 15.—Christian N. Herter, formerly an attaché of the American Embassy in Berlin, but who was loaned by Ambassador Gerard to Brand Whitlock, the American Minister in Belgium, has arrived in Berne, after having been arrested by a German petty official at Mayence and having been subjected to much annoyance in leaving Belgium.

Mr. Herter said that he had applied for his passport February 5, but was kept waiting for them until February 9. When he had to change trains at Mayence he was seized and locked up for most of the night. When he was released, after repeated protests, he was ordered to cross the boundary by 8 o'clock. This he said he did with the customary difficulties at the frontier.

WASHINGTON, D. C., Feb. 15.—Carrying safe conducts from Great Britain and France for himself and party, Count von Bernstorff, the retiring German Ambassador to the United States, has started on his way for Berlin. After touching at Halifax for an examination of her cargo by the British authorities, the steamer Fredrick VIII, on which the Ambassador is a passenger, will sail for Copenhagen, whence the party will make their way into Germany.

WASHINGTON, D. C., Feb. 15.—The Chilean Government, in its reply to the German note respecting new measures of submarine warfare, declares that such measures amount to a restriction of the rights of neutrals, to which restrictions Chile cannot agree.

WASHINGTON, Feb. 15.—Word has been received here that Brand Whitlock, American Minister to Belgium, has been ordered by the German authorities to lower the American flag over the American legation at Brussels.

While the news aroused deep feeling in official quarters, and admittedly added to the tension of the situation with Germany, it appeared doubtful whether there was ground for taking any action, as Mr. Whitlock, while in Belgium, has practically only represented the American relief work. The seat of the Belgium government now is at Havre, France.

AMSTERDAM, Feb. 15.—The Lokal Anzeiger, of Berlin, expresses the hope that cable reports to the effect that American merchantmen are sailing in defiance of the submarine blockade are unfounded.

"The plan for such sailings," it says, "at the bottom amounts to nothing else than most wickedly tempting God."

#### LEGISLATURE MEETS.

With twenty-three members absent the Kentucky General Assembly convened at noon at Frankfort, Wednesday, for the sole purpose of considering tax legislation. Three measures, drafted by the Tax Commission, named by the Governor, following the adjournment at the last regular session of the Legislature, were introduced in the House, and referred to the Committee on Taxation and Revenue. The Governor's message to the Legislature was read, and the House adopted a resolution endorsing the action of President Wilson in severing diplomatic relations with Germany. The resolution was acted on by the Senate yesterday.

#### PAY-DAY FOR COUNTY SCHOOL TEACHERS DELAYED

The money for payment of the six-months' salary due the teachers of the Bourbon County Schools, due in February, has not arrived, the cause of the delay not being given out. Miss Mabel Robbins, Superintendent of County Schools, is expecting to hear something definite very soon from Frankfort.

#### WE'RE UP-TO-DATE.

State Road Commissioner Rodman Wiley has written to County Judges advising them that unless a county can show good reasons why surveys have not been made during the winter months, it is doubtful if any road plans for 1917 work can be approved later than April 15.

This lets Bourbon county out, as all the surveys have been made and approved and County Judge McMillan and County Road Engineer Bedford can "read their titles clear."

#### SELLS SMALL FARM.

Mr. Clarence Hough purchased of Mr. D. C. Lisle, the Sudduth farm, located on the Hill pike, near Cencer, for \$87 per acre. Possession will be given in March, when Mr. Hough will move to the farm to reside.

#### THE TOBACCO MARKET.

Continued cold, accompanied by the heavy snowfall of yesterday, a drop in prices, and the condition of the tobacco in barns, which is extremely dry and hard to handle, have all been factors in causing the Paris market to drop off considerably. Bare floors and a street cleared of wagons, present a striking difference to the situation of several days ago. Indications are that receipts will again be light, yet a rise in temperature will put the product in handling condition, and receipts will begin to pour in again.

#### K. OF P. CELEBRATION.

Plans are progressing for a great meeting of the Knights of Pythias at the Castle Hall of Rathbone Lodge No. 12, in this city, on the night of Thursday, Feb. 22, Washington's Birthday. The occasion will be one of the very greatest importance to the members of the order, as it marks two events in its history—the fifty-third anniversary, and the fortieth anniversary of the beneficiary department.

An interesting program will be rendered. Past Grand Chancellor R. A. Young, of Winchester, has been invited, and has signified his acceptance of the invitation, to make the principal address of the evening. There will also be a few musical selections, in addition to the ritualistic work of the Third Rank.

Rathbone now has a membership of nearly three hundred, and it is hoped that this Homecoming or Gettogether meeting will bring out every member in the county. Remember the date, Thursday, February 22.

Here in this State the Knights of Pythias maintain one of the finest homes in the world for the orphaned children of their deceased members. Nearly one hundred children, not the mere wards of charity, but the beneficiaries of the order, are being cared for and educated at this Home. The institution is located at Lexington, and it is worth the time and trouble for any person, whether a member of the order or not, to visit the place. It will give them a keener insight into the work being done by the Knights of Pythias for God and Humanity. In that place nearly a hundred orphan children are being tenderly cared for and educated, who would otherwise have been thrown upon their own resources in the world.

#### TAX LEAGUE CAMPING AT FRANKFORT.

The Kentucky Taxpayers' League, which was recently brought into being at Winchester, for the purpose of equalizing the tax burdens of the farmers of the State, has secured quarters at the Capitol Hotel, in Frankfort, where they will maintain headquarters during the special session which was convened there Wednesday. Signatures of over five hundred farmers of Bourbon county, representing the thinking element of the agriculturists, have been secured to petitions recently circulated in the county by representatives of the Taxpayers' League. The greatest interest has been manifested in the outcome of the tax fight at Frankfort, and frequent inquiries have been made of this office as to what is going on among the solons at Frankfort. Among the members of the League who have been at Frankfort recently looking over the situation were Messrs. Thos. Biggestaff, Henry V. Thompson, Nelson Gay, James H. Thompson, Claude Williams, Lester Witherspoon, Col. English, Mr. Knox and Mr. Worthington.

A call has been issued by the League for a meeting of the thirty organizations composing the State Chamber of Commerce to meet in Frankfort next Tuesday for the consideration of the tax bills now before the Legislature.

#### A CARD FROM MR. ERNEST MARTIN.

TO THE VOTERS OF PARIS:  
I desire to announce to the Democrats of Paris that I have decided to make the race for the nomination of Judge of the Paris Police Court, subject to the Democratic primary, on Saturday, Aug. 4.

In asking the Democrats of Paris to honor me with this nomination, I am mindful of the responsibilities the office imposes, and assure the voters that should they favor me with the nomination, and later elect me to this important position, that I will devote my best efforts to the fair and impartial conduct of my office.

I am now serving my first term as a member of the Bourbon Fiscal Court, being the Magistrate from the Paris precinct, and in the discharge of the duties of this office I have gained valuable experience in trying out cases similar to those usually handled in the Paris Police Court, and feel that I can preside over the duties of the Police Court in a manner that will prove just, and satisfactory to the voters of Paris.

I have affiliated with the Democratic party since arriving at my majority, contributing of my means and my best efforts in furthering the interests of the Democratic nominees at all times. It is my purpose to make an active canvass for this nomination, and will endeavor to see every voter in Paris before the election in August. Until I can present my claims in person, I respectfully ask the voters in general to not pledge themselves in this race. Assuring them that I expect to land this nomination and assist next November in the election of every Democratic nominee by sweeping majorities, I beg to remain,

Respectfully,  
ERNEST MARTIN.

#### FORTUNE FAVORS FOR MER PARIS PEOPLE.

By the merest chance, or good luck, as it may be termed, two former residents of Paris were saved from death or serious injury by not taking the street car, which was wrecked in Louisville, Monday, when a locomotive crashed into it.

Mrs. John P. Handley, formerly Miss Theresa McDermott, of Paris, had been waiting on a street corner near a drugstore for the car. She stepped inside to use the telephone pending the arrival of the car, which passed just as she stepped from the telephone booth. Mrs. Handley took the next car and came up to the railroad crossing in time to see the dead and wounded being carried from the very car on which but for a stroke of real good luck, she would have been a passenger. Miss Nora McDermott, sister of Mrs. Handley, intended to catch the same car, to pay her sister a visit, and while waiting at the street corner, decided to go by another route. She, too, would probably have been one of the victims. In a letter to her brother, Mr. John R. McDermott, local manager of the Postal Telegraph office, Mrs. Handley gives a graphic account of the accident and the sights she saw. Both Mrs. Handley and Miss McDermott are congratulating themselves that the ill-fated car passed them by. In the wreck that followed the collision between the car and the engine, seven were killed and thirty-one seriously injured.

#### SELLS FARM.

Mr. Charles P. Mann, of Paris, a member of the Paris Realty Co., has purchased of Mr. Carter N. Martin, of Stony Point, this county, his farm of twenty-eight acres, located on the Winchester pike, for about \$300 per acre. The place is well improved and has a substantial brick dwelling, large to bacco barn, frame store house, etc. Mr. Mann bought the property as an investment, and will get possession on March 1. Mr. Martin will dispose of his general merchandising business, and will probably move to Paris to reside.

#### DIRECTORS OF ALEXANDER BANK AGAIN MADE DEFENDANTS

Suit was filed in the office of Circuit Clerk Wm. H. Webb, Tuesday, against the Board of Directors of the collapsed George Alexander State Bank, in liquidation. The suit was filed by Mr. Edward B. Sparks, of Bourbon county, and is similar to the one filed a few weeks ago by Mr. J. A. Wilson, of Paris.

Mr. Sparks says that about January 8, 1914, he had on deposit about \$15,000, and that George Alexander, acting for the bank, agreed to pay him six per cent. interest if he would allow the money to remain as a time deposit, to which the plaintiff agreed, receiving a note bearing six per cent. interest for the amount. The plaintiff asks for judgment in the sum of \$18,243.33, less an amount received by him from the State Banking Commissioner in charge of the liquidation of the bank. The directors named in the suit are J. W. Bacon, W. W. Mitchell, John M. Brennan, Harry B. Clay and E. P. Claybrook.

#### INDICTMENTS HINTED AT IN NEWSPRINT CASE.

Federal investigation of the newsprint paper situation has uncovered enough evidence, it was made public in Washington, to warrant the Department of Justice asking indictments of paper manufacturers for alleged anti-trust law violations. Already, it was learned, a Federal grand jury in New York is taking testimony to determine if there has been a criminal conspiracy in restraint of trade. Bainbridge Colby and Mark Hyman have been retained as special assistants to the Attorney General to aid in the inquiry.

The Federal Trade Commission, which has furnished much of the information on which the Department of Justice is acting, announced that Francis J. Heney, of California, had been engaged as a special attorney in the commission's inquiry into high newsprint prices and that under his direction the commission would continue its investigation after a preliminary report is made to Congress early next week.

The Trade Commission, it is understood, will report that it has found that increases in newsprint prices within the year are from 4 to 20 times the advance in production cost. It will say there never has been an actual newsprint shortage and that manufacturers have helped create a panic among publishers by intimating there was one.

#### COLUMBIA BEING REMODELED

A force of carpenters began work Tuesday morning remodeling the store-room in the Odd Fellows' building, at the corner of Main and Fifth streets, recently occupied by the Columbia Theatre as a moving picture house.

The room, when completed, will be occupied by a firm from Lexington, who will conduct a first-class confectionery, ice-cream parlors, etc. They will take possession early in March.

#### DISTRICT MEETING OF ODD FELLOWS' LODGES.

About one hundred delegates, representing the various I. O. O. F. lodges embraced in the Seventh Kentucky district, and composed of the principal lodges from all the Central Kentucky towns, convened in the lodge room of Bourbon Lodge No. 23, in this city, at 3:30 o'clock Wednesday afternoon.

The meeting was called to order by Grand Secretary R. G. Elliott, of Lexington, who was assisted in presiding by District Deputy Grand Master M. B. January, of Paris. The Past Official Degree was conferred on the following Past Grand Masters: W. C. Usery, John H. Doty and Wm. H. Lail, of Bourbon Lodge No. 23; L. S. Pendleton, of Grassy Lick Lodge No. 283; W. S. Earlywine, O. N. Griffin and Dr. S. R. Fisher, of Headquarters Lodge No. 96; J. S. Reynolds, of Owingsville Lodge No. 304.

Among the delegates were D. C. Wilson, of Headquarters; John Mylor and R. G. Elliott, of Lexington; Dr. C. H. Rees, Winchester; J. S. Shoptaugh and Everett Thomason, of Millersburg; S. W. Shirley, of Versailles, and many others.

At 7:30 p. m. the Secret Work was exemplified by Grand Secretary R. G. Elliott, of Lexington, Judge E. B. January, of Paris, assisting. After this the session of the lodge was presided over by Judge E. B. January, of Bourbon Lodge No. 23. Addresses were made by the following brethren of the order: Grand Master W. V. Gregory, of Mayfield Lodge No. 151; Grand Secretary R. G. Elliott, of Lexington; Dr. Cranley Elliott, Dr. S. R. Fisher, L. S. Pendleton, Dr. C. H. Rees, J. R. Reynolds, John Mylor, Wm. A. Hince, Charles Clendenin, Superintendent of the Indigent Home at Eminence, gave an account of the work being done at the Home, which was both instructive and entertaining.

This was one of the most enjoyable meetings ever held in Paris, and one that will long be remembered by all who attended. Every member of the lodge present at this meeting pledged himself to see that this will be a banner year for Odd Fellowship in Kentucky.

#### MRS. LAFFERTY TO LECTURE.

An address on "Study Kentucky" will be delivered at the Paris High School Auditorium at 2:30 o'clock this (Friday) afternoon, by Mrs. W. T. Lafferty, of Lexington, formerly of Cynthiah, who is well-known and greatly admired here for her cleverness and intelligence.

Mrs. Lafferty is one of the most charming women and pleasing speakers in the State, and it will be, indeed, a rare treat that awaits all who go to hear her at the High School this afternoon. A cordial invitation has been extended to all the members of the Federated Clubs of the city and county, to attend, and hear Mrs. Lafferty's address. The meeting will be free to the public.

the kind that is not too heavy, but is made with a light layer of cotton next to the skin and another layer of fine woven Australian wool on the outside, which does not scratch and irritate the skin, but prevents the cold from penetrating through the garment. **EDITORIAL MUSINGS.**

**Lincoln's Example and the Poor Boy.**  
In the many addresses given at celebrations in honor of Abraham Lincoln's birthday February 12, one thought that is always emphasized is that of the humble origin of the great war president. The lesson is enforced that lowly surroundings are no bar to advancement, and that they often stimulate the ambitious boy to surmount obstacles.

While this is perfectly true in rare cases, yet usually the boy from the home as humble as Lincoln's starts in under a terrible handicap. He is put to work after meager schooling, as sweeping up floors in some mill, picking up coal in a mine, or at any task where brains are not called for. There is nothing in his work to stir his ambition or develop his mental powers.

Most children of this type go to work before they are physically ready for it. Their lives are spent in a weary day dream, in which the only bright spots are the feeding times. These are likely to be meager and unsatisfying. If a spark of ambition exists in such a mind it is soon blotted out.

A future generation will see what a dead weight is hung on the State by neglect of these young lives and toleration of unwholesome working conditions. In some of them are the germs of great futures. Lincoln even with his humble home, lived a healthful open air life, which many of our children never have. Lincoln might never have been heard from, had he been put in a mill at 12 or 14 years of age.

A child at this period can add but little to the means of his family. By keeping in school and preparing himself for better work and better citizenship, he can add much to the welfare of the community. A wiser generation will keep its children longer in school, even if it has to extend aid more freely for the support of humble homes.

**The Lack of Skilled Labor.**  
A man connected with a concern now making war material remarked a few days ago, that it seemed almost impossible to get enough skilled workmen. He found that there is a good deal of help that can be had. But only a fraction of the applicants are men who can do a high grade of mechanical adjustment.

In rush times almost any kind of an employee can get work. His inferior product slips along. The inspector may see its defects. But when customers are clamoring for delivery of orders, many faults slip through that ought not to pass.

In the dull times of the past few years, inferior workmen have found themselves left out of the shuffle. If there was work for only a part of the force, the skilled man was kept at the bench, while the less efficient man was informed that there was nothing doing. No complaint might be made of the quality of his work. But somehow there was never anything for him.

Just now the rush of war orders is providing for many men whose product is of inferior quality. But when war orders stop, and before the normal trade of peace times is re-established, there will be many an idle day for the second rate artisan. These conditions are true not merely of workmen in the lines making war material, but in all lines of mechanical employment.

The young mechanic should put some brains into his work. He should study the philosophy of mechanics: processes and physical forces, and learn the one perfect way of performing every motion. If some of the time spent in discussing socialism and baseball were spent in getting information about the best methods of producing the desired mechanical results, there would be more meat for the family table and more clothes for the kids. Also in every trade there are practical books of technical science that give good ideas. If they can not be had in a man's own town, they can be borrowed at slight cost from circulating libraries.

**WHAT'S THE REASON?**  
Many Paris People in Poor Health Without Knowing the Cause.

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood; and that may be the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Paris.

Wm. W. Dudley, 1729 Cypress St., Paris, says: "Some years ago, I found it necessary to use a kidney remedy and as I had read about Doan's Kidney Pills, I used them. They proved to be satisfactory and permanently rid me of kidney complaint. I have good reason to recommend Doan's Kidney Pills and advise their use to anyone troubled with a weak or lame back or irregular passages of the kidney secretions."

Price 50 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Dudley had. Foster-Milburn Co., Props., Buffalo, N. Y. (adv)

**FARMERS BUSY GETTING HEMP CROPS READY.**

The breaking of their hemp crops in absorbing the attention of those farmers of Bourbon county who raised the staple on their lands the past year. This work is considerably behind, owing to the dry weather in the fall, which was unfavorable to the proper rotting of the crop, and the continued cold weather which has made breaking almost impossible.

As a consequence only a small part of the crop has been broken out. Farmers throughout the county are paying hemp breakers two dollars per hundred, and it is thought this unprecedented price will supply all the hands available for the work, and that as soon as favorable weather comes along the work of breaking will be pushed as possible. Bourbon county now has about 1,200 acres of hemp and the staple is selling at \$13.75 per hundred, the highest price ever paid in this county.

**FOR A BILIOUS ATTACK**

When you have a severe headache, accompanied by a coated tongue, loathing of food, constipation, torpid liver, vomiting of partly digested food and then bile, you may know that you have a severe bilious attack. While you may be quite sick there is much consolation in knowing that relief may be had by taking three of Chamberlain's Tablets. They are prompt and effectual. Obtainable everywhere. (Feb-adv)

**MATCH USERS STRUCK FOR HIGHER PRICES.**

Matches have gone up. The high cost of living has already nudged up prices considerably. Coal is higher, wood kindling is higher, coal oil is higher, likewise gasoline and cigars. The things that need matches have already gone up, but it remained for recent days to affect the price of matches.

The little red-tipped, green-headed splints; the purple-headed, white-tipped ones; and the others, are now being sold for 10 cents a box, two for fifteen.

The price of wood and the match-head chemicals are assigned as the cause. Poor old Carranza is having a hard time pushing his way to the front page at present.

**SAFETY FIRST**  
Just so you will not forget it, we say it one time more: You will be missing much of the pleasure and much of the profit of farming this year if you do not raise most of your living at home. Milk and butter, chickens and eggs, lard and bacon, fruit and vegetables—these things are an essential part of the best farming. Begin right now to plan for—and when the weather admits to prepare for—a good garden. There's no use living on the farm, anyway, if one cannot have an abundance of fresh vegetables to eat. As for fruit, if you have no trees or vines or bushes growing now, you can't get fruit this year. You still have plenty of time to set out some of these things, however, and be prepared for better living another year.

When it comes to bread and meat and feed for the live stock, the one safe plan is to raise just as much as possible of it at home. This suggestion, applicable to farmers everywhere, is especially commended to readers this year and let other things go. To provide a living at home is safety whatever the weather or the war may be or do; to risk getting a living from high-priced cotton is a gamble any year and doubly a gamble this year.

**Yes,—Southern Folks Know What Is What**

**We know Sheep from Goats— Get over Baby talk— and stop Salting Birds' Tails—**

Down South here folks are mighty keen on sizing things up. We know how to tell the sheep from the goats. There isn't much sense trying to pull the wool over our eyes. It must be the way we're raised. We get over baby talk pretty early. We soon stop trying to put salt on the birds' tails. We learn it's no use to fib. Yes—we get pretty wise. And I'm mighty pleased to know that millions of men of the South are smoking me—

**SOVEREIGN.** It's a compliment—it proves that I must be right—that I must be of the finest.

So, I say to myself:—"I am worthy of these fine friends of mine,—I keep myself clean, and sweet, and pure,—I see to it that I live up to my every promise."

And so when my friends refer to my good old Virginia and Carolina stock, and my fine, white, cleanly home—I certainly am proud. Because—

**You Folks of the South KNOW good blood! You folks of the South KNOW good tobacco!**

I want you all to believe in me,—I want every cigarette smoker here in the South as a friend. And why not?—I am SOVEREIGN! "King of them All." Here's another good word for me—

I am guaranteed by *The American Tobacco Co.* —Buy me. If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

## HERE'S A HAPPY "TANLAC FAMILY"

Sisters Join Their Mother In Declaring Tanlac Meant New Start In Life For Them.

MRS. JOHN LOWE.

MISS FRANCES BURNETT.

MRS. S. C. BURNETT.

"Someone suggested the other day that we tack a sign on our house saying, 'This Is a Tanlac Family.' That's because my two daughters and I talk so much about Tanlac. We all wear the Tanlac Smile, too," Mrs. S. C. Burnett, 1408 Walnut street, said.

"But why shouldn't we talk about it when we feel that it has done us a world of good. Everyone of us has been helped by Tanlac and I'll tell you we can't say too much for it."

"First my older daughter, Mrs. John Lowe, tried it. She had lost 30 pounds and was so run down and nervous that even the rumbling of a wagon or the slamming of a door would upset her for hours. We feared we would have to send her to a hospital."

"I honestly believe that Tanlac saved her from complete breakdown. Nothing else seemed to help her. But Tanlac put her on her feet again right quick. Today she is one of the happiest women in Cincinnati."

"Then Frances became run down—sort of half-sick. She had dizzy spells. We were going to take her out of school because she kept complaining of spots and webs before her eyes. Her complexion got pasty and she didn't look a bit well. Tanlac however, proved to be just the thing she needed and now she is back in good health again."

### Mother Was Half-Sick.

"As for myself, I felt almost the same as Mrs. Lowe. My stomach troubled me. My appetite was poor and I suffered after eating with bloating and belching of gas. But with the help of Tanlac I got rid of these troubles and now I feel simply splendid."

"But I started out at first to tell

you about Mrs. Lowe. She simply thought she was going to die. She felt so bad I believe she almost would have been glad to have it all ended. It was just pitiful to watch her. Her weight dropped from 140 to 110 pounds. She couldn't eat without being sick. We had just about given her up. Then we heard of Tanlac and she tried it. All of a sudden she seemed to take new interest in life. Within a week she began eating solid food, just like she did before she had trouble with her stomach. The food nourished her, too, and she began taking on weight. She slept sound and it seemed like no time before she was feeling well again."

### Helps Youngest Girl.

"One day Frances was up to see her sister. She's the youngest, you know. She was feeling bad and Mrs. Lowe gave her some Tanlac. It made her feel better and she came home and said, 'Mama, I believe that new tonic that helped sister will do me some good. Please get me a bottle.' So I did and do you know that in a week she began to feel better. Now she eats all she wants, sleeps well and doesn't have those dizzy spells or spots before her eyes when she is studying."

"I was such a firm believer in Tanlac by the time it had built up the health of my two girls that I got some for myself. It certainly toned up my system. I used to have nervous spells but they are all gone now. I got back my appetite and now I sleep as well as I did before my stomach started to bother me."

"I tell you Tanlac has done a lot for our family and we can't say too much good about it."

Tanlac, the master medicine and reconstructive tonic, is sold exclusively in PARIS by Varden & Son. Other exclusive agents in nearby towns are as follows:

## HOPES TO RID KENTUCKY OF HOG CHOLERA

"I hope before the end of my administration to see hog cholera eradicated from Kentucky," declared Commissioner of Agriculture Mat S. Cohen, Chairman of the State Live Stock Sanitary Board, after a conference of the board with representatives of the Federal Bureau of Animal Industry in regard to co-operative efforts for the control of all contagious diseases among animals.

Special efforts are now being made for the eradication of hog cholera, which cost the agricultural industry of the State \$2,000,000 in 1912, and Commissioner Cohen said they agreed on a plan of work which he believes will be effective. It has to be sent to Washington for approval.

Since 1912 hog cholera has been reduced about half, principally due to the rigid inspection and disinfection of stock cars during the fight against foot and mouth disease. The Kentucky department endeavored to continue the practice, but could not get the co-operation of the Government and other States.

## PROMISES TO DEPUTY NOT AGAINST CORRUPT PRACTICE ACT

Candidates for county offices, particularly that of Sheriff, are getting ready to admit, not to say promise, their constituents that they will appoint so-and-so deputies, and the good news is reaching them that they can do this without violating the provisions of the Corrupt Practices Act. Many candidates for county offices, such as Sheriff, Assessor, etc., have been inquiring of Attorney General Logan whether arrangements, by which a prospective deputy runs along with his principal for the office, are illegal. General Logan has come to the conclusion that it is all right and not prohibited by the act. The quid pro quo for the appointment is not the vote of the prospective deputy, but the more or less speculative support of a section of the constituency, to whom the personality of the deputy appeals, and since it brings to public notice the character of appointments the candidates will make engendering the opposition of those who disapprove as well as winning the support of such as are satisfied, the moral principles of the statutes are not transgressed. The bill as originally drawn contained language which might have affected this, the best bid for popular support; local candidates have discovered.

## FOUR CANDIDATES FOR JAILER DIE IN NICHOLAS COUNTY

Evidently it is not a healthy matter to seek the nomination for Jailer of Nicholas County, as four of the prospective candidates for that office have died recently. Each of the candidates was sick but a short time or died suddenly.

E. D. Scott, who was a prospective candidate for the nomination, died while driving to Carlisle on Court Day. Polk Bowen, another candidate, died a few weeks ago after a short illness. Jailer M. M. Brothers, who was a candidate for re-election, was stricken with paralysis, and lived but a few days after he was first taken ill. Mr. Mike Flora, of near Myers, another candidate, died Saturday, after a short illness of double pneumonia, resulting from a bad cold.

But there is another corps of candidates coming into the field, apparently undeterred by the seeming fatality that attends the candidacy for the office.

## MILLERSBURG

### HISTORY OF MILLERSBURG.

—We now come to the home of Mr. T. E. Savage. This is one of the few homes in Millersburg that has not undergone a change in the head of the household. It is true there has been many changes in the family, but Mr. Savage owned the home then and he does now. There was no sidewalk leading from the residence, nor none leading from the street to the veranda. The property was well kept, as it is now. Mr. Savage was one of the guarantors of the fund raised to maintain the Kentucky Wesleyan College at Millersburg. A picket fence enclosed the property from the street, as it does now, and is the only landmark of the kind in the neighborhood which connects the present with the past, as all of the other fences have long since been taken down.

Shortly after coming here Mr. Savage laid a rock sidewalk in front of his home and the property described in a previous letter. Later when the spirit of enterprise struck the city, he laid concrete sidewalks in front of all his property. His family consisted of his wife, two daughters, Misses Mary and Katherine Savage, three sons, William E. Savage, Robert and Fred Savage.

Shortly after coming here Mr. Savage accepted a position as salesman in the drugstore of Dr. W. M. Miller in which position he held for many years. The store was afterward sold to Mr. H. H. Phillips, and later to Smith & Wadell. During the time that Mr. Savage occupied this position he was also notary public, and deputy county clerk, and spent much of his time in the County Clerk's office at Paris. The children were all in school, the two older boys being students at the K. W. C. After the college was moved from here Mr. W. E. Savage completed his education at Center College, Danville, and afterward went to the Ohio Medical College, at Cincinnati. After receiving his diploma he went into the office of Dr. P. S. Connor, at that time the most prominent surgeon in Cincinnati. He remained there until after the death of Dr. Connor. After that he opened an office for himself, which he has since occupied. Some years ago he was united in marriage, and has two children to grace his home.

After Mr. Robert Savage gave up school he went into the grocery of Judy & Collier as a salesman. His health soon failed in an attack of typhoid fever and in a few weeks he died, his remains being interred in the Millersburg cemetery. Miss Katherine Richardson Savage graduated from the M. F. C. and later was united in marriage to Captain A. C. Klockseim, who occupied a chair in the M. M. I. During his stay in Millersburg they occupied rooms in the M. M. I. Captain Klockseim being desirous of prosecuting his education further gave up his chair at M. M. I. and, with his wife, went to Ann Arbor, Mich., where he continued his studies. After completing his post-graduate course there they went to his old home at Cleveland, Ohio, where he engaged

in school work and is still prosecuting the same.

Mr. F. J. Savage, the youngest son, was the first graduate of what is now the M. M. I., then the Millersburg Training School. The Baccalaureate address was delivered on the evening of his graduation by Rev. Mitchell, then of the Eleventh Street Methodist Church at Covington, Ky. Mr. Savage made his own way through school, and for many years was carrier of the Cincinnati Post, and by pluck and perseverance secured the education which sent him out into the world to battle with life. After his graduation he went into the L. and N. R. R. station at Millersburg under Mr. W. V. Shaw, where he studied telegraphy and as soon as he was ready for work he was placed in the Paris L. and N. office by the company, where he has been since then. He has gradually risen from time to time until he holds one of the most responsible positions in that office. Some years ago he was united in marriage to Miss Bessie Boston, a second daughter of Mr. and Mrs. Willis Boston, near Millersburg, and has a little one at home. In the past two years they have built a handsome home at Paris, which they now occupy, in which his father and sister, Miss Mary Savage, spend many happy hours.

Mrs. Sue Jaynes, sister of Mrs. T. E. Savage, sold her home on Trigg avenue to Mr. F. F. Hurst. She then went to make her home with her sister, Mrs. T. E. Savage. After a short time she died of epilepsy and was interred in the Millersburg Cemetery. The Savage family at this time consisted of Mr. and Mrs. T. E. Savage, and one daughter, Miss Mary. Mrs. Savage was in failing health and died later, just after being taken from the operating table at Good Samaritan Hospital, at Cincinnati, Ohio. Mr. Savage and daughter, Miss Mary, have since occupied the home alone. In the past few months Mr. Savage has been in failing health, but we are glad to say that he is better than he was last summer, and hope that many more summers may yet bless him and his. Miss Mary Savage is his house-

keeper and cares for him with the attention and devotion of a mother.

Since resigning his position some years ago with W. D. Wadell & Co. after Dr. Smith had retired from the firm, Mr. Savage has not been engaged in active business. He has prepared more notes, written more deeds, wills, mortgages and contracts than any other man in Millersburg. He is just one of those men that every small town needs.

## FINED FOR WORKING.

What in the thunder is a man going to do anyway? The law says that every able-bodied man must have some visible means of support; in other words he must work for a living. If he does not, he becomes amenable to the law and can be fined and punished for vagrancy—for failure to earn a living. This is a just law, and every year thousands of shiftless beings pay the penalty, while many more thousands escape punishment. By cold indifference on the part of shiftless officials, entirely too many escape from the net of the law. The law prescribes certain things we can do, and forbids other things. It is a very unusual thing, however, for a man to be arrested and fined for working. But sometimes the laws say "Stop!" to the laboring man and stern justice will demand a part, or all of his hard-earned money, for working too much or too hard—or rather the infraction of some man-made law.

Some time ago, Harry Weinstein, a Louisville barber, was fined \$25 and costs in that city for working too much. Weinstein was doing a thriving Sunday business, and was arrested on the charge of violating the Sunday closing law. When arraigned in Police Court he made the plea he observed Saturday as his Sabbath, and Judge Boldrick took the cause under advisement. At the final hearing, it is stated, Weinstein could not prove he belonged to any religious sect that observed any other day of the week except Sunday; and it was also proven that Barber Weinstein did not regard any day too sacred to work when a man needed a shave and had the price. Consequently he was fined \$25 and given the trimmings.

## "TOAD" WATKINS DEAD.

Wm. ("Toad") Watkins, well-known to Paris fans as a promising base ball player back in the days of the amateur teams playing in Central Kentucky, died in Manchester, Ohio, Tuesday, after a short illness. Watkins was a native of Maysville, where his body was taken Wednesday for interment.

Watkins was a ball player of exceptional ability, and in his prime ranked with the very best of amateurs. In later years, after playing with Maysville, Paris, Carlisle, Lexington, and other Central Kentucky teams, he played in the Central League, where he made a good record. Watkins is well remembered here.

## PARIS BOWLING TEAM DEFEATS LEXINGTON TEAM.

Paris not only has the crack basketball team of Central Kentucky, but it has one of the best semi-professional bowling teams in this section. The mixed teams from the Paris Bowling League went to Lexington, Monday night and took a hard fall out of the "big city fellers," who have all along had the opinion that they were invincible. Of course, it may not happen again, but it was glory enough for the Paris team to defeat their opponents by a majority of 346. Shades of Hendrick Hudson and Rip Van Winkle, just think of a country town team putting it over a crack team like Lexington! But the score shows the boys did it.

The Paris team played a strong game, their score going up as high as 213, which was bowled by Funk in the third game. He also carried the second and highest score, 193, in the second game. Duncan rolled 180 in the third game; Henry made 190 in the first game; Hadden piled up a score of 176 in the second game, while Jones pulled out 160 in the third game. The high man for the Lexington team was Miller, who got out 172 in the second game, while Biven came second with 165 in the first game. The Lexington team fell below their usual averages, and their play was rather weak. The Paris boys came home highly elated over their victory, feeling they had done a great night's work. The score follows:

Bernard Santen's boast that his team, the Bourbon Laundry, would be heard from again in the Paris Bowling League race, was well-meant, but it seems that "the best-laid plans of mice and men oft go wrong." So did the Santen calculation.

There was a reversal of fortune in Tuesday night's game, with the result that the Bourbon team lost the game to their opponents, the Fordham Hotel team, by a majority of 42 pins. A remarkable feature of the game was that Taylor, Swearingen and Thomas, for the winners, each bowled 174, while Taylor rolled 172 in the third game. Their other scores ranged from 114 to 168. For the Laundry team Fred Burgin took the lead with 169 to his credit in the third game. He also captured second honors by bowling 166 in the first game. Other scores made by this team ranged from 102 to 161. The score follows:

## TRAINER MILAM TAKES HANCOCK COLTS TO TRAIN

Trainer J. Car Milam, of Lexington, has taken over Mr. Arthur B. Hancock's Embroidery and Sprint, also Ironmaster and a two-year-old bay filly, sister of Harbach and Gainer, and a two-year-old gelding, a brother to Morrishorn, to train. Embroidery was a high-class mare for Trainer Milam last season, while the others were also good winners. Morrishorn has also been one of the best campaigners in the Hancock stable.

Mr. Ezekiel Arnold, of Newport, and his trainer, Dannie Miller, have also arrived in Lexington, to arrange for taking up and training Moineen Star and Big Fellow, a two-year-old brown filly by Sweep and a two-year-old brown colt by Magneto.

## SOUTHERN WRITERS TO COMPETE FOR PRIZE.

Paris people who were successful in literary lines last year have an opportunity of using some of their work to advantage this year according to the rules in a contest to be conducted by the Southern Society of New York. The society, of which Mr. S. R. Barton is the president, will give \$500 for the best piece of poetry published either in book form, newspaper or magazine. Southern writers alone are eligible to compete in this contest, and no person not a native and resident of Kentucky, Maryland, Virginia, West Virginia, Florida, Alabama, Georgia, North and South Carolina, Mississippi, Louisiana, Texas, Tennessee, Missouri or Arkansas need submit work.

Only one work can be submitted by a contestant, but work on his or her behalf by others will be considered. All products must be in the exact printed form in which they were published, no manuscript being accepted. The last rule stipulates that the author's full name and address with an exact statement of birthplace and present residence must be sent before 6 p. m. March 1, 1917, to Louis Graves, secretary to the committee, 5 West Eighty-second street, New York City.

## CLUB MEETINGS.

The Progressive Culture Club met in regular session at the residence of Miss Clara Belle O'Neill, Wednesday afternoon, with the president, Mrs. Amos Turney, presiding. Miss Clara Belle O'Neill gave a most interesting paper on "American Composers," with selections from their music rendered on the piano. This was followed by a general discussion of schools and styles of music by the members of the Club.

Mrs. W. O. Hinton, the president, presided at the regular weekly meeting of the Paris Literary Club, Wednesday afternoon, held in the Club rooms. There was a good attendance. The subject of "Realism" was continued from the last meeting, and the following interesting program was given:

"Representative American Comedy," Mrs. White Varden; Reading, Miss Mary Fithian Hutchcraft; "Business and Politics on the American Stage," Miss Nellie Fithian; "Our Mrs. McChesney," Miss Rachel Wiggins. After the conclusion of the program Mrs. Hinton announced the following program committee for the next year's work: Mrs. Charlton Alexander, Miss Nellie Fithian, Mrs. Thos. Henry Clay, Jr., Miss Lucy Simms, and Mrs. J. T. Vansant. Suggestions and subjects for the next year's study were discussed by the members of the Club, and will be decided on at the next Club meeting.

## B-4 FIRE Insured with W.O. HINTON &amp; SON, AGTS

## FIRE DESTROYS MEAT MARKET AT MILLERSBURG.

Fire of an unknown origin which started in the basement of the Rigdon meat market, in Millersburg, Tuesday morning, damaged the building and contents to the extent of several hundred dollars.

The fire was discovered about four o'clock Tuesday morning by a passing autoist, who gave the alarm. The fire department responded, and assisted by a score of volunteers, succeeded in controlling the fire before the building was entirely destroyed. The meat market and grocery fixtures, as well as the stock, were entirely destroyed or so badly charred and otherwise damaged by water and smoke as to be as good as a total loss. The grocery of Mr. J. C. Thompson adjoining, was also damaged. The offices of Dr. J. C. Calhoun on the second floor of the building, and the apartments of Messrs. Ridgion, Bowles and Pence, were damaged.

The building, owned by Mrs. Sue Sandusky, and the stock and fixtures in the Thompson and Ridgion groceries were partly covered by insurance. Mr. Ridgion will resume business as soon as the building is repaired.

## THE VANISHING SHAKERS.

From Kentucky comes the story of three aged survivors of a once large colony of Shakers making arrangements to have their lands, valued at more than \$1,000,000, revert to the State. This is passing one more of the picturesque little Shaker colonies that dotted the East and Middle West after the coming of Mother Ann Lee, "the elect lady" from England in 1774. There are only a few of them left. Probably the total number of Shakers in the country is far below the 1,000 that they mustered when the last enumeration was taken half a dozen years ago. Forty years ago they numbered 4,000. Most of the colonies in passing have left riches in land and buildings, for the Shakers have been thrifty and industrious. History will probably place their religion on the long list of freakisms and ologies that have risen and fallen but there has been much in the simplicity and purity of the Shaker life to make the thoughtful ponder. Shakerism has been defined as spiritualism grafted to Quaker theology, with celibacy and communism thrown in; but that hardly does it justice. The quaint drab life of the celibate communities has won few converts in this generation and the adoption of children has not kept pace with the passing of the aged. The last Shaker community will hardly linger more than a few years longer.—Boston Herald.

## THE NAVAJO COUNTRY.

The true "heretic age" of human history was the period of direct contact with nature, the age in which heroic accomplishment and heroic endurance were part of the daily routine. The activities of men of that stage of progress deserve a place among the most cherished traditions of the human race. In the Navajo country in Arizona and New Mexico are the remnants of an almost extinct race, whose long occupation of the country is recorded in ruined dwellings and abandoned fields. This little-known region is the home of the vigorous and promising Navajos. To improve the condition of this long-neglected but capable race, to make their life more intelligently wholesome by applying scientific knowledge, is a duty which should appeal to the people of the United States.

In 1909 Herbert E. Gregory, of the United States Geological Survey, Department of the Interior, began a study of the interesting geologic problems of this country at the request of the Office of Indian Affairs. At times these explorations were exhausting and dangerous, but the loyalty and devotion of assistants and Navajo guides were equal to the many hardships and uncertainties of desert travel. The future of the Navajo country depends largely on the solution of one problem—the water supply—and therefore this work was designed to procure data bearing on this problem. The geography of the region was also studied with a view of preparing a description of this little known part of the United States—an account designed to facilitate the work of those who are to supplement the preliminary examination by detailed studies.

The report of these explorations is extremely interesting not only to engineers and geologists, but to all who have felt the charm of the Southwest or who have the welfare of the red men at heart. It is published as maintained without charge by applying to the Director, United States Geological Survey, Washington, D. C.

The Baraca Class of the Paris Baptist church scored Sunday against the class of the Maysville Baptist Church in the membership contest recently inaugurated. The Paris class had an attendance of 45, while Maysville had 31, giving Paris a majority of 14 in the first round of the contest. Both sides are hard at work in the contest, endeavoring to make a large increase in attendance by next Sunday, February 18th.

**HIGH PRICE FOR CORN.**

Bourbon county farmers thought a record price for corn at a public sale had been made here recently when it sold for \$6.10 per barrel, but it remains for Grant county to show some class in corn raising. At a public sale of crops, etc., belonging to Mrs. R. Wayland, of near Williamstown, held this week, corn reached the unusual price of \$6.75 per barrel. This is undoubtedly the highest price known to have been paid in Kentucky for corn in many years.

**LEBUS BUYS ABDALLAH PARK.**

Mr. Clarence Lebus, of the Burley Tobacco Society, has closed a contract for the purchase of Abdallah Park, at Cynthiana, from Ben Hey, of Cincinnati, who now owns the property. The park contains seventy-four acres, and was for many years used as a fair grounds.

There is a mile track and an amphitheatre, numerous barns and stables on the grounds, and an attractive residence, once the home of Mr. W. H. Wilson, the noted horseman. The price paid is said to have been \$22,000.

**MR. D. D. CLINE ANNOUNCES FOR COUNTY ATTORNEY.**

In this issue Mr. David D. Cline, of Paris, announces his entrance into the campaign for the office of County Attorney of Bourbon county. Mr. Cline is one of the best-known attorneys in this city, and is at present holding the office of Public Administrator. He is one of the rising young members of the Paris bar, and has been very successful in building up a good practice in this city and county. Until recently he had been a member of the firm of Hutchcraft & Cline, the firm having only recently dissolved partnership.

Mr. Cline's claims for consideration as a candidate for the office are based upon his fitness for the position, his large experience, and a feeling that he can serve the county in an official capacity just as efficiently as any of his predecessors, or any one else who may take a notion to get into the game.

**L. & N. PAY DAY.**

There was "money to burn," speaking figuratively, of course, in Paris, Wednesday, when the hundreds of employees of the Louisville & Nashville railroad received their pay checks. The railroad people can scent the approach of the pay check mail a day in advance, and there's no more welcome visitor in Paris than the "pay man."

The Louisville & Nashville, the three tobacco warehouses, the E. F. Spears & Sons' interests, and several others leave a large amount of money in Paris every week and month that finds its way into trade channels and helps to keep Paris commercial life going. Are they not worth encouraging to the very fullest extent?

**SOME MORE WEATHER.**

There may or may not be anything in groundhog business we hear so much about, but it is a certain fact that, since the little pest went back into his winter quarters on the second day of the present month, there has been some of the worst winter weather that even "the oldest inhabitant" cannot discount.

Following the recent cold snap there set in a short period of comparatively mild weather, with a prospect of a return to reason of the weather man but Wednesday night a heavy snow storm again upset all calculations, continuing until yesterday afternoon, when the temperature took another upward rise, and the snow began to melt. For a time the snowfall promised to equal the memorable one of a few weeks ago.

**THIS DON'T MEAN YOU.**

If you have paid your subscription to THE BOURBON NEWS don't take this to yourself. If you haven't, give it a little thought—but don't get sore either. We just need the money that is due us, that's all. Quite a number of our friends have suggested to us that they thought perhaps we were joking when we told of the trouble which country newspapers face in the matter of securing paper upon which to print. Some have said they suspected it simply a new scheme to induce subscribers to "pay up," or an excuse for the increase in our prices on advertising space, etc. Luckily for THE BOURBON NEWS, however, enough of our patrons have understood the situation and "come across" and it has enabled us to secure enough news-print paper at a tremendous cost to take care of our patrons for the present. The situation is just acute as ever, and the price of printing material continues to go up, and if those who do owe us will just "come across" we will be able to continue giving them one of the best local papers in the State at the same old price of \$2.00 per year. One fellow who owed several years subscription put up the excuse that "they wuzn't no paper worth \$2.00 a year," and the editor replied, neither was tobacco worth \$113.50 a basket, nor gasoline 25 cents per gallon, nor 10 pounds of sugar worth a dollar, potatoes \$2.00 a bushel, "sow bosom" 23 cents a pound, etc. So don't get sore at us. Goodness knows we didn't start that war in Europe.

## THREE WOMEN HAVE NARROW ESCAPES FROM FIRE.

Chance stepped forth and snatched three women from the flames near Stamping Ground, Scott county, Sunday morning. The George Yates residence was a mass of roaring fire when David Robinson, a neighbor, passed by. He rushed into the flaming home to find Mrs. Yates, who is confined to her bed by illness; Mrs. Yates' mother, Mrs. Manfred, of Frankfort, and sister, Mrs. Duvalle, imprisoned—and helpless. The latter two women also were ill. Shouting for his sister, who he had left on the road side, Mr. Robinson, with her aid, rushed the three women from the house just as the blazing roof caved in, scattering firebrands over the yard.

The house burned to the ground, a loss of \$2,250. Insurance of \$800 was carried on the residence and \$500 on the furniture. A defective flue is believed to have been the cause.

## REVILL RESIGNS AS DEPUTY BANK COMMISSIONER.

Deputy State Banking Commissioner Rankin R. Revill has resigned his position to become the representative in Kentucky of the National Bank of Commerce in New York. Mr. Revill has held his position under the State since the creation of the Department in 1912 and three years of his term are still unexpired. He was selected for the position of Deputy by the late Thomas J. Smith, the first State Banking Commissioner, when he was appointed in the summer of 1912 by Gov. James B. McCreary. When Gov. Stanley appointed Senator George G. Speer, of Frankfort, to succeed Commissioner Smith, Mr. Revill was reappointed for another term of four years, from June, 1916.

He was graduated from the Washington, D. C., public schools and Georgetown College, Kentucky, and the University of Cincinnati College of Law in 1894. He practiced law in Washington and then went to Covington, where he was Court Deputy for the Circuit Court Clerk before returning to the banking business.

## COUNTY SUPERINTENDENTS MUST GET NEW CERTIFICATES

County Superintendents who got by under the law requiring a certificate from the State examiners because they were in office when the law was enacted, and those who, instead of a State teachers' diploma or certificate took a special examination, had better secure another certificate before they run again, in the opinion of Attorney General Logan.

The law states that, if a Superintendent does not possess a diploma or certificate covering the duration of his term of office, he must get a special certificate, equivalent to them from the State examiner, before he enters office. Some of them thought as they were equivalent to the regular certificates, they were of the same duration, eight years, and could be renewed. General Logan thinks otherwise, and said if they were for eight years they would expire before the end of their next terms. So he admonishes them that, while the law is vague on this point, and they may have the right, it will be safer for them to secure new certificates.

## KENTUCKY GETS \$194,943 FROM U. S. FOR ROAD WORK.

Kentucky will get \$194,943.82 as her apportionment of Federal aid for rural post roads for the fiscal year ending June 30, 1918, according to announcement of the Secretary of Agriculture.

Apportionment of \$10,000,000 to various States for roads was announced by Secretary Houston. The funds are the apportionment for the fiscal year ending June 30, 1918.

To meet the cost of administering the law, \$300,000 has been deducted of the remaining \$9,700,000. Illinois gets \$441,852; Indiana, \$271,495; Kentucky, \$194,943; Mississippi, \$177,811; Ohio, \$373,810; Tennessee, \$228,306; Texas, \$583,855, and West Virginia, \$106,540.

In addition \$1,000,000 will be apportioned for the development of roads or trails within or partly within the national forests. The law provides that \$15,000,000 shall be apportioned in the fiscal year of 1919; \$20,000,000 in 1920 and \$25,000,000 in 1921.

According to one Washington report, the United States may decline to discuss peace with Berlin while the Germans are engaged in trying to bar the doors to peace with the undersea warfare.

They are preparing to protect New York from attacks by sea, but nothing could prevail against the invasion of the spenders from "the provinces."

## A FRIEND'S ADVICE

## Woman Saved From a Serious Surgical Operation.

Louisville, Ky.—"For four years I suffered from female troubles, headaches, and nervousness. I could not sleep, had no appetite and it hurt me to walk. If I tried to do any work, I would have to lie down before it was finished. The doctors said I would have to be operated on and I simply broke down. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, and the result is I feel like a new woman. I am well and strong, do all my own house work and have an eight pound baby girl. I know Lydia E. Pinkham's Vegetable Compound saved me from an operation which every woman dreads."—Mrs. NELLIE FISHBACK, 1521 Christy Ave., Louisville, Ky.

Everyone naturally dreads the surgeon's knife. Sometimes nothing else will do, but many times Lydia E. Pinkham's Vegetable Compound has saved the patient and made an operation unnecessary.

If you have any symptom about which you would like to know, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.

## YOU'RE BILIOUS! LET "CASCAETS" LIVE IN LIVER AND BOWELS

Don't Stay Headachy, Constipated, Sick, With Breath Bad and Stomach Sour.

Get a 10-cent box now. You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep: cleans the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken. (adv)

A housewife must give the first aid in colds, coughs and other ailments. Her promptness in applying the remedy often saves a serious illness. Her experience with remedies has led her to know that PERUNA is always reliable, that she should have it on hand for the immediate treatment of coughs and colds, and that it is always to her.

Mrs. George Parker, 42, Water St., Menasha, Wis., writes: "We have used Peruna in our family for a number of years, and have found it a perfectly reliable medicine. It cures the system of any traces of a cold, and prevents serious consequences. I began using it for catarrh, which I suffered with a good many years, but had not been very serious until recently. Since I have taken Peruna the drooping in my nose has disappeared, and my head and nose are not so stuffed up in the morning. I am pleased with the results, and shall continue to use it until I am entirely rid of catarrh. I can only recommend it as an honest medicine. What it does for her it is ready to do for you."

### GERMAN "NOTE" ANSWERED BY AMERICAN "NOTE."

WASHINGTON, Feb. 15.—The following statement, issued by Secretary Lansing, and the subjoined memorandum set forth the latest developments in the controversy between the United States and Germany:

"In view of the appearance in the newspapers of February 11 of a report that Germany was initiating negotiations with the United States in regard to the submarine warfare, the Department of State makes the following statement:

"A suggestion was made orally to the Department of State late Saturday afternoon by the Minister of Switzerland that the German Government is willing to negotiate with the United States, provided the commercial blockade against England would not be interfered with. At the request of the Secretary of State this suggestion was made in writing and presented to him by the Swiss Minister, Sunday night. The communication was made as follows:

"Memorandum: The Swiss Government has been requested by the German Government to say that the latter is now, as before, willing to negotiate formally with the United States, provided that the commercial blockade against England will not be broken thereby."

P. RITTER.

"This memorandum was given immediate consideration, and the following was dispatched in answer. "My Dear Mr. Minister: I am requested by the President to say to you in acknowledging the memorandum, which you were kind enough to send me on the 11th inst., that the Government of the United States would gladly discuss with the German Government any questions it might propose for discussion were it to withdraw its proclamation of the 31st of January, in which, suddenly and without previous intimation of any kind, it canceled the assurances which it had given this Government on the 4th of May last: (the Sussex note), but it does not feel that it can enter into any discussion with the German Government concerning the policy of submarine warfare against neutrals which it is now pursuing, unless and until the German Government renews its assurance of the 4th of May and acts upon the assurances. I am, my dear Minister, &c."

"ROBERT LANSING." "No other interchange on this subject has taken place between this Government and any other Government or person."

WASHINGTON, FEB. 15.—Expulsion by the German military authorities of the American Commission for Relief in Belgium and Northern France, after its two and a half years' of devoted service, during which the greatest and most sustained relief work in history was built up, was officially reported to the State Department, Monday, in a telegram from Mr. Page, in London. The news was received here with profound regret, the development being regarded as one of the most deplorable of the many deplorable results which have flowed from Germany's announcement of unrestricted warfare on January 31.

LONDON, Feb. 15.—The American Commissioner for Relief in Belgium has officially notified the German authorities that the Americans will withdraw from participation in the relief work in Belgium and Northern France. This step was taken in reply to an order from the German authorities that Americans must withdraw from the provinces of Belgium and Northern France, leaving only a few of the representatives, headed by Brand Whitlock, American Minister to Belgium, in Brussels.

### TO EXCLUDE SPIES FROM CANAL ZONE.

WASHINGTON, Feb. 15.—An executive order to exclude spies and other undesirable persons from the Panama Canal Zone and give to the Governor virtually unlimited authority to regulate immigration there, has been signed by President Wilson.

TOKYO, Feb. 15.—Viscount Motono, Japanese Minister of Foreign Affairs, at a conference with the Chinese Minister, has approved the attitude of China toward Germany as it has been expressed in China's reply to the German note on unrestricted submarine warfare, according to the newspapers.

## FIELD GLASSES AT THE FRONT.

One of the British steps in mobilization of national resources for war was to call on all citizens of the Empire to contribute their field-glasses and telescopes for use at the front. Almost 30,000 glasses were found acceptable among those offered. They include all sorts from the highest-grade binoculars suitable for artillery range-finding to old-fashioned telescopes that are used to distinguish hostile from friendly aeroplanes. The glasses were contributed chiefly by hunters and followers of horse-racing. They came from the remotest parts of the Empire, even from Malaysia.

She was the mother of Mr. Luther Ashcraft and Mrs. Carrie Crump, of Bourbon county, and was a guest of her son in this county a short time ago.

Mrs. Ashcraft was the widow of Mr. Nimrod Ashcraft, of Robertson county, and until about a year ago, had spent her entire life at the old home near Mt. Olivet. Besides Mrs. Ashcraft and Mrs. Crump, she leaves five other children residing in Scott, Harrison and Robertson counties.

The funeral services were conducted at Foster's Chapel, in Robertson county by Rev. Mr. Howes, the burial following in the family lot in the Chapel burying grounds.

## HUERKAMP.

—The funeral of Mr. Henry Huerkamp, father of Mrs. Richard Welling, of Paris, took place in Cynthiana, Monday, with services conducted at the St. Edwards Church, by Rev. Father Joseph Lingrel. The interment followed in the Catholic cemetery at Cynthiana.

Mr. Huerkamp was a native of Germany and came to America when he was sixteen years old. He located in Cincinnati, but came to Cynthiana several years afterward. Thirty-one years ago he married Miss Elizabeth Rohs, daughter of the late Herman Rohs, of Cynthiana. During all the years Mr. Huerkamp was in the merchandising business in Cynthiana he had the reputation of being straightforward in business matters and honorable in all dealings with his fellow-men, thereby enjoying the respect and esteem of all who knew him. In his death Cynthiana lost a good citizen and his family a friend and devoted father.

## RENICK.

—Mr. Scott Renick, aged fifty-five, son of the late Abraham Renick, in his day one of the most noted Short-horn breeders and farmers in Kentucky, died suddenly Wednesday, in Havana, Cuba, where he had gone several weeks ago on a health-hunting trip. The information of Mr. Renick's death came to Paris in the shape of a telegram to Mr. B. M. Renick, of the Paris Milling Co., apprising him of his brother's death. No details were given.

Mr. Renick was one of the best-known farmers in Clark county, where he had been living for several years. He was a native of Bourbon county, having first seen the light of day on the old Renick farm near Clintonville. He is survived by his mother, Mrs. Wm. H. Renick, of Paris; his wife, who was formerly Miss Princess Sutherland, of Clark county; one son, Mr. Phelous Renick, of Winchester; three brothers, Mr. B. M. Renick, of Paris, Morris Renick, of Middletown, O., and Abraham Renick, of Clark county; two sisters, Mrs. Duncan Bell, of Paris, and Mrs. Curtis Smith, of Dallas, Texas.

Mr. Renick had recently suffered two strokes of paralysis, and had gone South in hope the warmer climate might benefit him. The funeral arrangements have not been completed.

## THOMAS.

—Mr. Robert L. Thomas, a former resident of Paris, and one of the best known turfmen in the State, died at his home at 531 Main street, in Lexington, at six o'clock Tuesday night, after a protracted illness.

Mr. Thomas had been in failing health for a number of years, and his retirement from the racing game a few years ago was due to the poor condition of his health. Some time ago he went to New Orleans for the winter racing season, but poor health compelled his return very recently. Three weeks ago his condition became very much worse, and his friends realized that he was gradually sinking to the end of his life journey.

Born in Bourbon county July 3, 1867, Mr. Thomas was the son of Capt.

James M. Thomas, in his time one of the most prominent and wealthy men of this section, and a member of the Kentucky Senate in 1900 when Governor William Goebel was killed. His mother was Miss Rogers, a member of the prominent Rogers family of Bourbon county. For years his father was manager of the Kentucky Union Land Company, which led to his becoming interested in mountain timber lands, out of which he made a large fortune, and this business his son took up a number of years ago, and followed it out successfully.

Mr. Thomas was a successful turfman prior to his retirement a few years ago. Though he never maintained a very large stable, he had a number of good race horses, including White Wolf, Flying Squirrel, Polls and Twenty-One.

Mr. Thomas was twice married. His first wife was Miss Susan Harcourt, of Louisville, who died several years ago without heirs. His second wife was Miss Irma Trent, of Washington, D. C., who survives him. Two little daughters, Irma Lee Thomas and Dorothy Thomas, and one sister, Mrs. John T. Ireland, of Lexington, also survive him. Mr. Thomas' death leaves Mrs. Ireland as the last of a family of ten members, of whom five died in their infancy.

The funeral was held at the Thomas residence, in Lexington, at two o'clock yesterday afternoon, with services conducted by Rev. Edward Mueller. The pallbearers were J. Tandy Hughes, Robert Shannon, R. W. Rounsavall, Jas. Shannon, Phil Chinn and J. F. David, of Winchester.

## TREES AND LIGHTNING.

An investigation was recently made in Germany on the number of trees of different species which are struck by lightning. The investigation seems to show that the poplar and oak are most likely to be struck. Beech, alder, chestnut and maple are the least likely to attract the thunderbolt. Trees growing in moist ground, trees near water, and trees with deep reaching roots are all more dangerous than their respective opposites. The report concludes also that it is always dangerous to shelter under a tree in a thunderstorm, when the tree stands alone.

## "NATIONAL SONG" DAYS.

In conformity with a movement that is assuming national proportions, State Superintendent of Public Instruction Gilbert announces that he will ask Governor Stanley to issue a proclamation, designating February 18 to 24 as "National Song Days," when schools and public gatherings will be asked to sing the National Anthem and patriotic songs. Similar proclamations have been issued in a number of States. The Paris schools will likely take up the proposition when the proclamation is issued.

Since married men are generally called to the colors last, some people are predicting a big boom in the matrimonial market.
